US EPA RECORDS CENTER REGION 5

Mr. Herb Finch
Reilly Tar and Chemical Corporation
7200 Walker Street
Minneapolis, Minnesota 55426

Dear Mr. Finch:

I wish to acknowledge receipt of the license application and letter with attached sketches. The license application is being processed.

The letter with sketches describing some past experimentation and your current plans have been reviewed by me. I have surveyed your facilities with our consultants from Environmental Research and have discussed the operation and its various aspects with Mr. William Justin and you.

Presently, I understand that a meeting is being arranged between the city and the company in the very near future to discuss these matters. We will discuss these matters and any other matters of mutual interest at this time. In the mean time, please feel free to call me.

Very truly yours,

St. Louis Park Health Department

Harvey J. McPhee

Public Health Sanitarian
